Bachelor of Science in Technical Management

Go for the business knowledge to complement your technical or vocational background with Southern New Hampshire University's technical management degree.

Specifically designed for those who have earned an associate degree in such specialized skill areas as small engine repair, automotive technology, electronics technology, graphic arts, culinary arts, etc., the technical management degree program helps students prepare for a career in business. The added business and liberal arts studies courses open career opportunities in a number of fields, including management of small business enterprises and nonprofit agencies and organizations.

The number of free electives in the program enables students to tailor their studies to suit their interests.
