Master of Science in Operations and Project Management

# Go Manage

## Master of Science in Operations and Project Management

Become a master management-level problem-solver and prepare for industry certifications with SNHU's Master of Science in operations and project management. The affordable, 12-course, 36-credit program will provide students with the skills necessary to better design and manage core operations and projects. No GMAT or GRE required.

Why pursue an M.S. in operations and project management at Southern New Hampshire University?

- Students will be prepared for career paths in both manufacturing and service organizations.
- Students will be exposed to real-life operations and projects through guest lecturers and visits to high-tech companies.
- Students will learn the skills necessary to link operations and projects with relevant activities in other areas of the business.
- SNHU faculty have advanced academic qualifications and years of practical experience.
- Program is highly affordable and can be completed in 18 months.

Students who take QSO 620 Six Sigma Quality Management will be prepared for the Six Sigma Green Belt certification exam. Those seeing to prepare for certification as project managers through Project Management International should take QSO 645 Project Management for PMP Certification.

Career opportunities with a M.S. in operations and project management:

- Process improvement manager
- Operations manager
- Quality assurance manager
- Supply chain manager
- Project director
- Branch manager
- Inventory manager
