Roommate Group Form

When completing this form, full capacity must be filled for the type of housing desired. For example, if you are attempting to be placed in 4-person housing, 4 names must be listed on the sheet, etc. If you do not have the appropriate number of names for selection, your group will not be allowed to select on the designated night and will select at the end of the process. Please complete only the section under the heading “Name” and circle the type of housing desired. The remainder of the form will be completed by the Residence Life staff.

If you attend your designated night, and do not wish to select among the options available, you have the opportunity to regroup yourselves into different categories, such as 6-person housing, 2-person housing, etc.

Looking for an apartment or townhouse? Some important things to remember:

The Alcohol and other Drug (AOD) policy allows for alcohol in apartments/townhouses where students who are at least 21 years old reside. With this privilege comes specific responsibilities for those of-age students, including:

- Units found responsible for hosting an AOD violation will become dry for all residents of the unit.
- The amount of alcohol present in any unit must not be excessive when compared to the number of residents who are 21 years old or older.
- Maximum occupancy for all apartment units is 20. If occupancy restrictions are applied due to violations, they are applied to all residents of the apartment.
- Residents are responsible for the actions of those present in their apartment.

Please refer to the AOD policy at <http://www.snhu.edu/2112.asp> for more information.
