# A TRADITION STEEPED IN HISTORY

## COMMENCEMENT PROCESSION

A procession of the various participants begins and ends our formal commencement ceremony. Individuals are arranged to reflect the order of academic rank in the hierarchy of the traditional European university.

At SNHU, the Mace Bearer leads the procession. He or she is followed by the Faculty Marshals, the Platform Party, and then the Faculty of the schools arranged in order of seniority, beginning with the senior faculty. The procession is concluded by the degree candidates. They enter in groups representing their schools/units, led by a gonfalon (flag) and walking in rank.

## CEREMONIAL MACE

The mace was first used as a weapon. The word comes from the Latin ‘mateola,’ meaning mallet or staff. It consisted of a long club with a ball of steel or brass at one end. As newer weapons came into use, the mace lost its prime purpose as an instrument of war; however, it had become a symbol of authority and power. Universities in Europe with roots in the Middle Ages adopted maces as symbols of authority and unity. Since then, other institutions of higher learning have come to use the mace in their ceremonies.

Southern New Hampshire University commissioned David Elwell, a New Hampshire silversmith, to create a mace to commemorate the university's 50th anniversary commencement. This mace is made of brass, aluminum, copper, and bronze, with a staff of ebony and African padauk.

## THE PRESIDENTIAL MEDALLION

The Presidential Medallion, worn by the president with academic regalia, is a symbolic representation of the authority and responsibility vested by the university in the president. It is a symbol of office that dates from medieval times and is worn by the president at all ceremonial occasions.

The Presidential Medallion is a permanent possession of the university and is presented to successive presidents at their inaugurations by the chairman of the Board of Trustees. The chain and medallion are fabricated from sterling silver. The university emblem, in relief, is the central design on the medallion. It is

surrounded by a border of entwined wires, similar in texture to the chain links, and finished with a square raised edge. The heavy, twisted links of the chain bear four oval plates on each side. The background of the entire piece is oxidized to highlight the relief design and textures. The names of those who have held the office are engraved on the reverse side of the medallion.

The Presidential Medallion was designed and fabricated in 1987 by award-winning New Hampshire metalsmith Jacquelyn Ferrency of Milford.

## ACADEMIC REGALIA

---

The academic costume worn today originated in the universities of the Middle Ages, when a warm gown and hood were useful for scholars and clerics in unheated buildings. The distinctive gowns served to set students apart from their fellow citizens, hence the perennial controversy between ‘town and gown.’

Until after the Civil War, students at most American universities wore caps and gowns daily while in residence. These varied in design until they were standardized by the American Intercollegiate Commission in 1894. At that time it was decided that all robes would be black; bachelor’s gowns would have long, pointed sleeves; master’s gowns would have long, closed sleeves with slits for the arms at the elbows; and doctor’s gowns would have very full, bell-shaped sleeves, each with three velvet bands matching the velvet facing of the gown opening.

The length of hoods varies with the degree. The lining of the hood indicates the university by the colors. The border of the hood indicates the academic discipline in which the degree was earned.

Students who have studied abroad for one or more semesters will be wearing a sash with the colors of the flag of the country where they studied. The sashes are issued to signify the university’s commitment to provide students with opportunities for acquiring international and cross-cultural experience.

The colors for academic fields established by the American Council on Education include:

Agriculture	maize
Arts, Letters and Humanities	white
Business, Commerce and Accounting	light brown
Dentistry	lilac
Economics	copper
Education	light blue
Engineering	orange
Fine Arts	brown
Forestry	russet
Journalism	crimson
Law	purple
Library Science	lemon
Medicine	green
Music	pink
Nursing	apricot
Oratory	silver gray
Pharmacy	olive green
Philosophy	dark blue
Physical Education	sage green
Public Administration	peacock blue
Science golden	yellow
Social Work	citron
Theology	scarlet
Veterinary Science	gray

(Caps and gowns representing degrees from foreign universities may be quite different from those described. The most obvious difference may be in the cap, which is often a soft, round hat of the style worn by medieval scholars.)

## STUDENT SPEAKER

### ELLE TIBBITS

Bachelor of Science in Economics & Finance,  
Bachelor of Science in Math

Good morning, President LeBlanc, President Lynott, Distinguished Deans, Board of Trustees, Staff, Faculty, Friends, Family and my fellow graduates.

Thinking back to the first day of orientation, I remember being terrified to say my name. Eighteen years of nicknames and this was the first I had chosen for myself; I never said it out loud before. As introductions proceeded clockwise I wrung my hands discreetly certain I would stutter over the three syllables. My turn, here then gone and no one called me a fraud and I grew to like the taste of courage. I saw SNHU for what it is – a fresh start, an opportunity, where we decide our fate, and who we want to be. I chose to be Elle and chose to try for a math minor. Though I didn't consider myself smart, I was convinced I could work hard. The faculty and staff saw beyond our past-defined trajectory, they invested in our potential and in our ‘wonder’. Four years of ample office hours, career fairs, and the space to create, clubs and programs and research, finds us here; at another opportunity for a new start to decide who we want to be. We may be staring down uncertainty and a lifetime of questioning, but we are prepared for the fight.

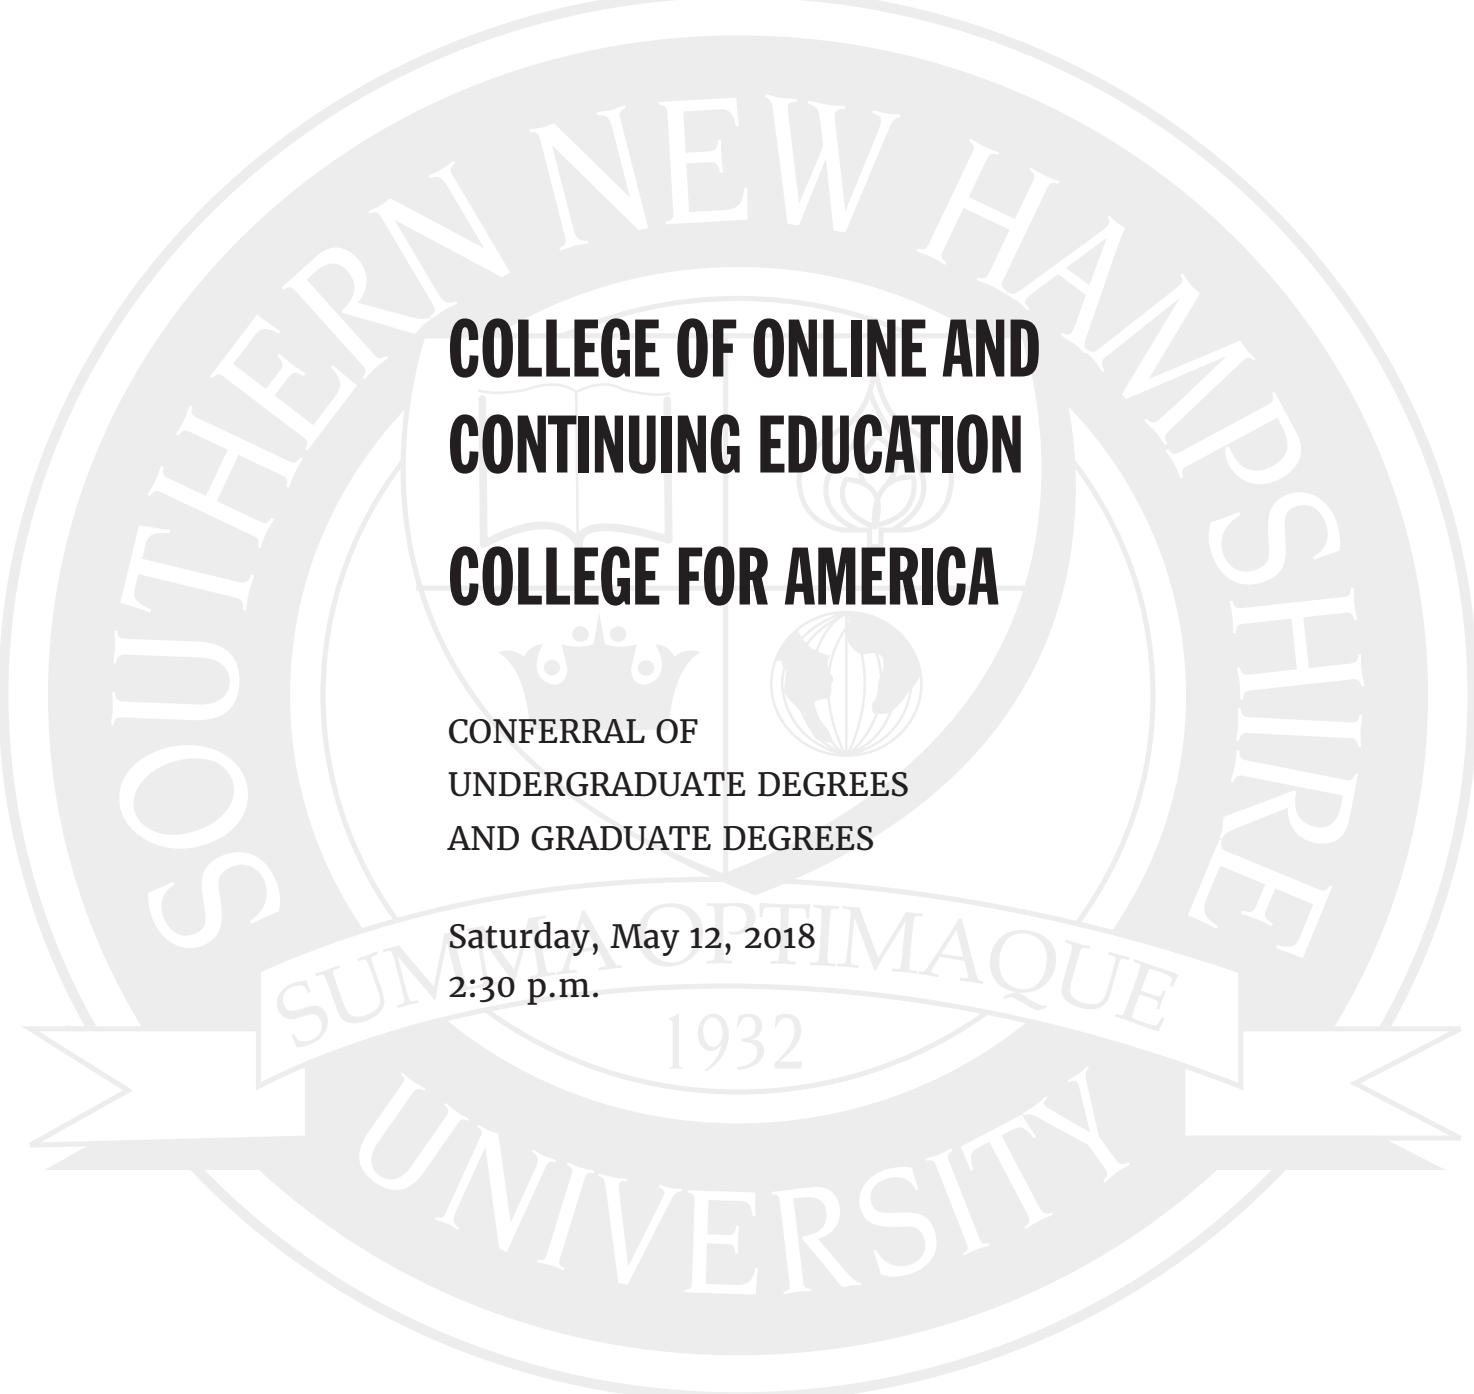

At SNHU, our wonder helped us make connections when our experiences seemed worlds apart. I am fortunate to have served four years working a job I love at the Center for Community Engaged Learning. I spent months at the International Institute of New Hampshire playing hide-n-seek in a conference room. There were three spots – the table, the fan, and the door – and thirteen hiders. Nepal,

Burundi, Iraq, America...regardless of where you are from hide-n-seek will always be exciting in a room with no place to hide. Through this, I began to understand the meaning of community.

Today, as we leave this community, we are prepared for all that's ahead, through the way we never stop wondering. From studying abroad or beach trips on weekdays, to championships and hard-earned A's, we developed a relentless need to know more, to fully experience every late night and early morning thrown our way. And today, a pause, a moment of applause, the payoff of questioning and of wonder, and never settling when there was a better choice to be made. For every independent effort claimed, each gain, insight, laugh, someone was there sharing in the hardship and the humor. Today is as much about our support system as it is about us – the ones who remembered our names and gave us a chance. They were there through every panicked phone call and coffee break, behind each recommendation and encouraging message. We chose to be brave. You inspired us to not fear falling. Thank you for believing in us, particularly when we didn't. Tomorrow we will chase the next adventure, reaching greater heights in altitude climbed or miles run or hours practicing and we will never stop redefining success. But today I am grateful to stand alongside nearly 900 scholars. Your focus and work ethic are inspiring, your joy infectious, and your presence a celebration.

Class of 2018, thank you for the wonder.

### AZMAT KHAN

*Honorary Doctorate of Public Affairs*

Azmat Khan is an award-winning investigative journalist, a New York Times Magazine Contributing Writer, and a Future of War Fellow at New America. Her reporting has brought her to Iraq, Egypt, Pakistan, Afghanistan, and other conflict zones, and won the National Magazine Award for reporting, the Daniel Pearl Award for Outstanding Reporting on South Asia, the Deadline Club Award for Independent Digital Reporting, and other honors. Khan is an adjunct professor at the CUNY Graduate School of Journalism's International Reporting program, a fellow at the Macdowell Colony, and a member of the Overseas Press Club's board of governors. She received an MSt. from Oxford University, which she attended as a Clarendon scholar, a B.A. from the University of Michigan, and studied at the American University in Cairo.

## STUDENT SPEAKER

### MOIRA COLLINS

*Bachelor of Arts in English and Creative Writing*

*Good Afternoon, President. LebBlanc, Distinguished Deans, Board of Trustees, Faculty, Staff, Friends, Family and Fellow Graduates.*

*In Euclidean Geometry, a straight line is the shortest distance between two points. Math is not my strong suit, but Google assures me this is true. The normal academic trajectory of elementary school, middle school, high school, and four years at college works well for some; however, for me and for many of you, it didn't. For many of us, our journey here was not a straight line: instead, we took (what I like to call) "the scenic route". Whatever path we took, we are all here because Southern New Hampshire University gave us the tools, and the opportunity to challenge the status quo. So, congratulations my fellow graduates we did it.*

*Let that message sink in for a moment. We did it. You did it. We finished and graduated despite the pressures of full-time jobs, kids, hectic schedules, and family commitments. Everyone who walks across this stage today did it. Whether you followed that straight line and arrived here in four years or veered left and took the scenic route, you did it.*

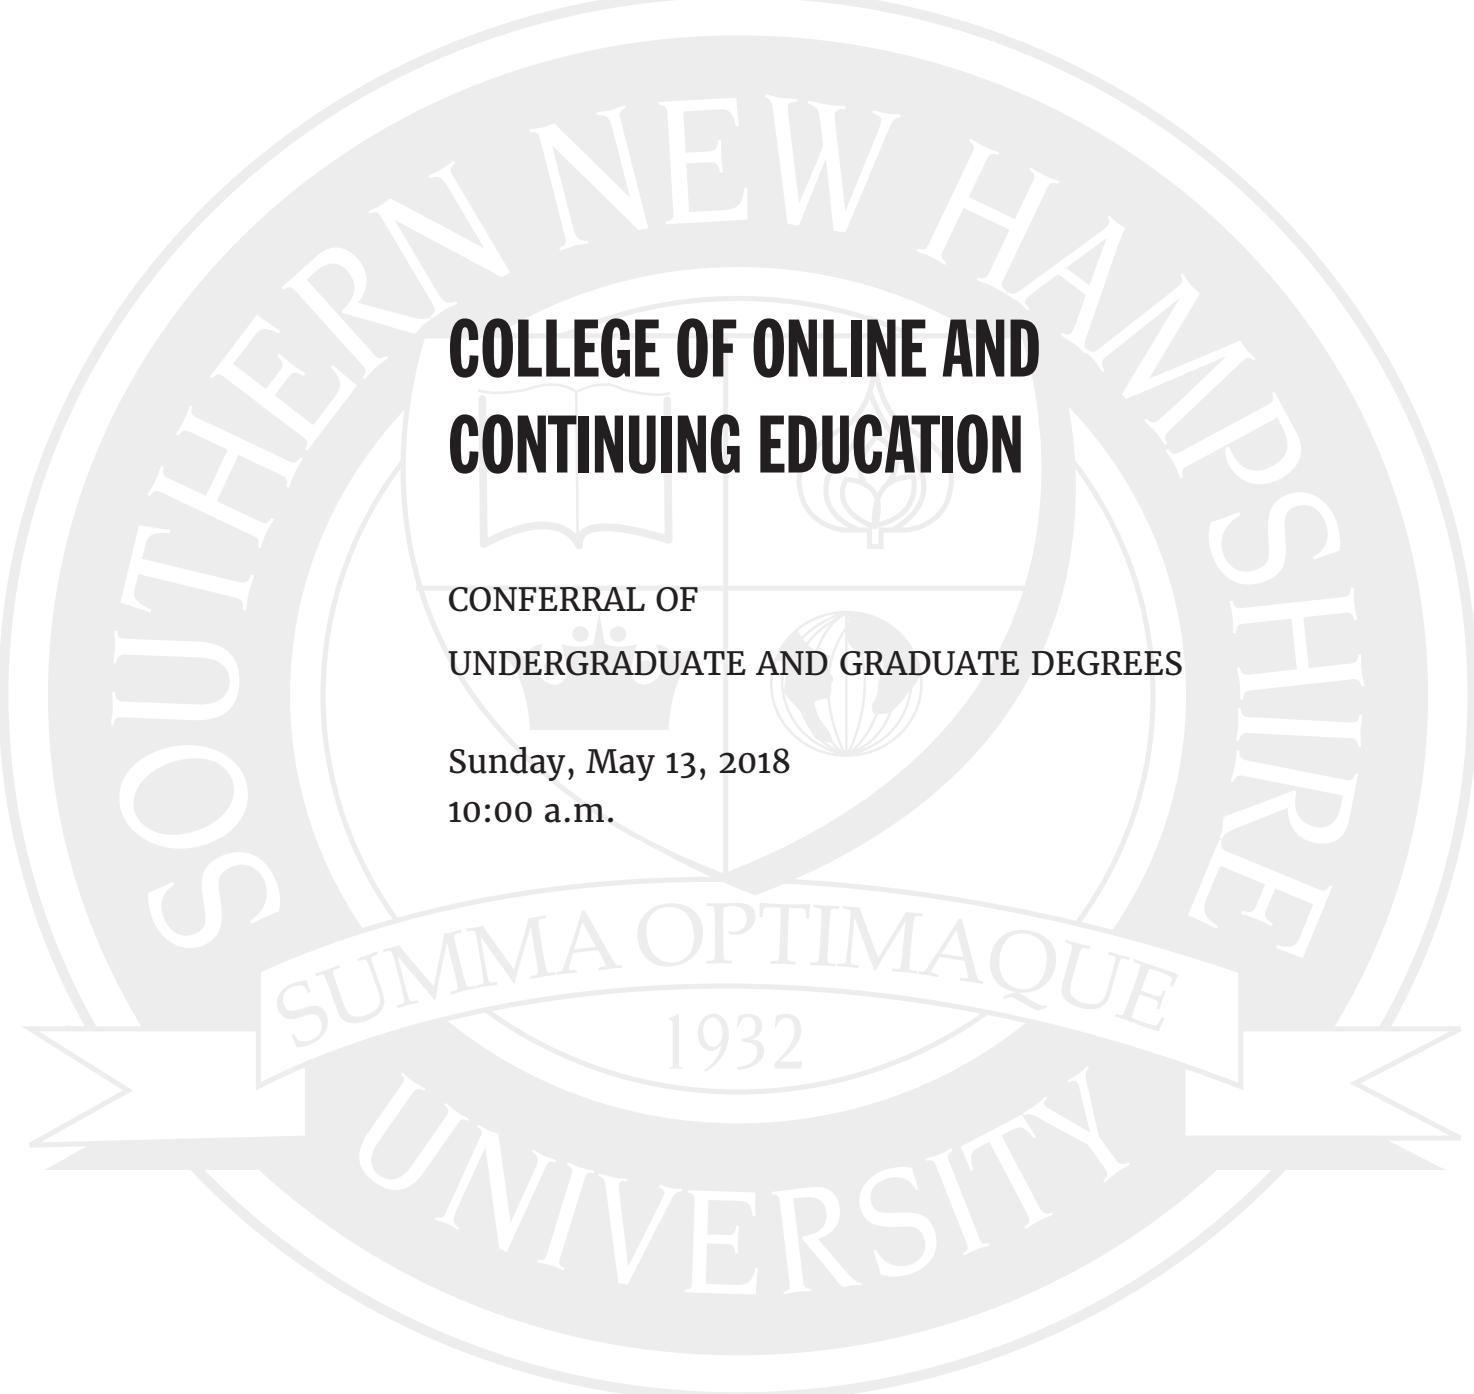

*Our collective journey today reminds me of childhood. I grew up in a small coastal town in Massachusetts. One thing my family loved to do together was go clamming. It is hard, hot work out there in sun with no shade, digging up shellfish.*

*Sand and shell fragments have a habit of working their way under your fingernails slicing the skin underneath, and saltwater makes those cuts sting. Once we got home, it was all worth it because we ate fresh steamers we dug ourselves. But no matter how much we scrubbed and cleaned the clams there was always a little grit left inside.*

*Today I can order steamers at just about any restaurant. I know they will come to my table grit free, with drawn butter, garnished with fresh lemon. However, they won't taste as sweet to me as the clams I dug from the sand myself, because sometimes a little grit is a good thing, in fact it's what binds all of us together.*

*Every SNHU graduate demonstrated grit. You showed it by staying up late on Thursday or Sunday nights to finish discussion posts or submit assignments. You showed it by sacrificing time with your family and friends to finish up reading or research for your class. You showed it by doing it week after week; day after day. No matter what your line looked like, remember your victory today was long fought which makes it makes it sweet. Congratulations Southern New Hampshire Class of 2018. We did it! I am so proud of us and our accomplishments.*

### THE HONORABLE ERIC GARCETTI

*Mayor of Los Angeles,  
Honorary Doctorate of Public Service*

Eric Garcetti is the 42nd Mayor of Los Angeles. His "back to basics" agenda is focused on job creation and solving everyday problems for L.A. residents.

Garcetti was elected four times by his peers to serve as President of the Los Angeles City Council from 2006 to 2012. From 2001 until taking office as Mayor, he served as the Councilmember representing the 13th District which includes Hollywood, Echo Park, Silver Lake, and Atwater Village -- all of which were dramatically revitalized under Garcetti's leadership.

Garcetti was raised in the San Fernando Valley and earned his B.A. and M.A. from Columbia University. He studied as a Rhodes Scholar at Oxford and the London School of Economics and taught at Occidental College and USC. A fourth generation Angeleno, he and his wife, Amy Elaine Wakeland, have a young daughter. He served in the U.S. Navy Reserve from 2005 to 2018 and is an avid jazz pianist and photographer.

## STUDENT SPEAKER

### APRIL CUTLER

Bachelor of Science in Accounting

*Good Afternoon, President LebBlanc, Distinguished Deans, Board of Trustees, Faculty, Staff, Friends, Family, and Fellow Graduates.*

*I stand before you on Mother's Day of all days. Before my family, peers, and esteemed faculty and staff. Major milestones have dictated an unwritten rule of order: primary school, secondary, college, career, marriage, and family. We've learned quickly that this order may not necessarily be realistic to everyone. Life happens. Sometimes kids precede marriage, marriages crumble, we lose loved ones, and sometimes college gets derailed.*

*During my journey at SNHU, I would often reminisce of memories with my mother where she frequently tried to convey the importance of education. I was young, naive, and of course a-know-it all. While her wisdom of the importance of education eventually influenced me, sadly she wouldn't be here to see her wisdom learned. Would a degree before family have been easier? Absolutely. Would a degree have been more valuable then? No.*

*Confucius is accredited with three methods of wisdom. "By three methods we may learn wisdom: first by reflection, which is the noblest; second, by imitation, which is the easiest; and third, by experience, which is the bitterest." I have exhaustedly reflected on education since losing my mother and more so in the past few years during my journey with SNHU, only to arrive at her same conclusion about education. Imitation because standing here today in front of my children and husband; I will lead by example.*

*They have seen me struggle and sacrifice. They've witnessed firsthand my dedication, and determination, but never once witnessed me surrender to defeat. Finally, experience, SNHU has offered a rich and rewarding experience to our diverse class – whether you're juggling home, family, school, and work as a single parent, or as a 2-parent household; are a recent high school graduate, a grandparent, the first in your family to graduate college, attempting yet again to obtain your degree, or working towards another degree.*

*Diversity can sometimes hinder growth. Yet, with SNHU's unwavering support for their students, this diversity has provided magnificent experiences and fortified bonds. Our diverse backgrounds united us under one commonality; we stressed, struggled, and fought for this together. This experience has shaped us into the resilient individuals we are today while imparting its wisdom.*

*What have I learned? My mother was right; education is important. Delaying graduating college may not have been the ideal order nor made life easier, however, I wouldn't change these experiences as I may not be standing here today with all of you. I have a profound appreciation for my degree that exists only because of the prior struggles, the friendships created, and my journey here at SNHU. It was Confucius that said, "it does not matter how slowly you go so long as you do not stop."*

*Congratulations Class of 2018!*

### **DR. VINCENT W. PATTON III**

*Master Chief Petty Officer of the Coast Guard, (Ret.),  
Honorary Doctorate of Public Service*

Dr. Vince Patton served as the 8th Master Chief Petty Officer of the Coast Guard from May 1998 until his retirement from more than 30 years of active service in November 2002. His illustrious career included staff and operational assignments throughout the country, both afloat and ashore throughout the United States along with a joint military service assignment in Cuba and Haiti. Among his numerous military awards includes the Distinguished Service Medal which is the nation's highest military peace time recognition for performance of duty.

After his retirement from the U.S. Coast Guard, Vince was an assistant professor at University of California Berkeley teaching 'Philosophy of Ethics,' for two years, and was also a seminary student, at Graduate Theological Union, earning his Master of Theology in Applied Religious Studies and becoming an ordained minister. Currently, he is senior vice president for leadership development with NewDay USA, responsible for the company's 'Character Driven Leadership' program which focuses on career development for its employees. He is also President and National Commander for the 50,000 member Non-Commissioned Officers Association. In addition, he is actively involved with a number of other public service and nonprofit organizations serving on boards with the National Coast Guard Museum, U.S. Naval Sea Cadet Corps, Northeast Maritime Institute and the Uniformed Services Benefit Association.

Vince received his Doctor of Education degree from The American University, a M.S. in Counseling Psychology from Loyola University at Chicago, a B.A. in social work from Shaw College and a B.A. in Communication from Pacific College. His extensive military education includes the Department of Defense Equal Opportunity Management Institute, U. S. Army Sergeants Major Academy, and the U.S. Coast Guard Chief Petty Officer Academy.

## STUDENT SPEAKER

### SIERRA INGRAM

*Master of Science in Accounting*

*Good Afternoon President LeBlanc, Board of Trustees, Scholars, Faculty, Family, and Friends; It is a pleasure to be standing here in front of you all on this glorious day.*

*Southern New Hampshire has enabled me to grow as a student, professional, active duty service member, parent, wife, business owner, and peer. My time at this institution has opened my eyes to how relatable we all are as students of life.*

*We, scholars from all walks of life, have one major characteristic in common. That characteristic is determination. Throughout our educational journeys I am sure we have all had our share of obstacles, adversities, and issues. However, persistence is omnipotent. Not giving up is why we, as graduating students are filled with such excitement; and our family and friends are proud of this great accomplishment.*

*We did not give up if we failed a test; We did not give up if we came across financial issues; We did not give up if we lost loved ones; We did not give up if we were deployed for our nation; and We did not give up if we were tired. If you look to your left, your right, in front of you, and behind you; You will only see a mere reflection of yourself in your peers.*

*It is important that we leave this arena with the same persistence we exercised during our coursework. Meaning, no matter what we do, where we are, or how hard things get; we must stay persistent, hungry, and humble throughout life. So never be ashamed to fail, learn from your journey, and never give up!*

*I will close with a quote from Dr. Denis Waitley, a former naval aviator and renowned author. "Success is almost totally dependent upon drive and persistence. The extra energy required to make another effort or try another approach is the secret to winning".*

*Congratulations on your success, Class of 2018.*

## THE LOEFFLER PRIZE

The Loeffler Prize is awarded to individuals who have extended themselves to help others in ways often extraordinary, but frequently unnoticed or unreported. This award recognizes those who have unselfishly and generously contributed their time and talents for the enrichment of others and the betterment of their community. They set an example for the spirit of generosity, everyday contributions, sometime heroism, and perseverance. The Loeffler Prize carries a \$2,000 gift to be made in the winner's name to a non-profit of his or her choice.

The Loeffler Prize is named for Frederic "Rick" A. Loeffler, a member of the SNHU community, who embodies the spirit of this award. A long-time member of the SNHU Board of Trustees and a local business person, Rick is a champion of his community and the prize commemorates his commitment to make Manchester and New Hampshire a better place for all.

### **The 2018 Loeffler Prize recipient is:**

- Peter Perich, '76 '85G, *Assistant Principal, Manchester Memorial High School (Ret.)*

# THE EXCELLENCE IN TEACHING AWARD

## AWARD FOR OUTSTANDING INSTRUCTION

The College of Online and Continuing Education recognizes the exemplary efforts of our adjunct faculty in promoting teaching and learning within its online programs. After an extensive review of student feedback and academic evaluations, nominations are submitted by Associate Deans of Faculty within their curricular units. Award recipients are selected by committee according to the following criteria:

- Demonstrate SNHU's commitment to quality instruction and an exceptional student experience;
- Support students by acknowledging their prior learning and experience, addressing concerns through care and effective communication, and exemplifying an encouraging disposition;
- Acknowledge students' prior learning and experience while engaging them proactively and consistently to foster academic growth;
- Utilize expertise in one's discipline to create connections between course content and current developments in the corresponding field, maximizing student achievement in the online learning environment.

Out of over 5,500 faculty teaching online with us this year, only one instructor from each of the seven curricular units is honored with this achievement.

### **The Recipients of the COCE Award for outstanding Instruction for 2018 are:**

- Clare Brown, *FYE & General Education*
- Audrie Cruz-Sealey, *STEM*
- Matt Frederiksen-England, *Nursing & Healthcare Professions*
- Steve Shirley, *Social Sciences*
- Jonathan Sturtz, *Business*
- Hannah Thompson, *Liberal Arts*
- Kimberley Tufts, *Education*

# ARTS AND SCIENCES

## UNIVERSITY COLLEGE SCHOOL OF ARTS AND SCIENCES

The mission of the School of Arts and Sciences is to educate students to live and work well and to be actively engaged in carrying out civic responsibilities. By connecting the humanities, sciences, fine arts, mathematics, technology, and social inquiry, students prepare for a community role that is as central to individual success as it is to a sustainable society. The School of Arts and Sciences delivers the General Education curriculum for all students in University College. Students of Arts and Sciences can pursue 18 different majors, 10 concentrations, and a wide array of minors. The arts and sciences curriculum serves as a gateway to many careers that already exist and prepares students for careers to come. Programs in the arts and sciences encourage critical thinking, empower students to try the new and dare the different, and help us understand the deepest forms of human expression. A creative mind is the highest recommendation for success in managing a complex world and living effectively in it.

## COLLEGE OF ONLINE AND CONTINUING EDUCATION LIBERAL ARTS DEPARTMENT

The mission of SNHU's department of Liberal Arts is to create the best student learning environment in the world and to promote the values achieved by obtaining a Liberal Arts education. We pride ourselves on providing our students with a transformative educational experience and with never giving up on a student who is putting forth the effort to achieve his or her academic goals. Regardless of discipline area, a Liberal Arts education challenges students to expand their minds outside of their current understanding while encouraging empathy and self-reflection. It promotes objective examination of new ideas and thoughts, helps foster creativity and the search for innovation in the development of problem solving skills. It helps improve communication skills in a variety of contexts, formats, and for different audiences while also asking students to question assumptions in search for truth. It also encourages students to become involved in their communities and in the larger global stage by sharing their talents and knowledge with others to help society. The department of Liberal Arts encompasses many diverse programs such as Communication, Creative Writing, Digital Photography, English, English Language and Literature, General Studies, Game Art and Development, Graphic Design, History, and our General Education program. These programs share the common characteristics of preparing students for both academic advancement and professional opportunities in their chosen career field.

## **COLLEGE OF ONLINE AND CONTINUING EDUCATION SOCIAL SCIENCES DEPARTMENT**

---

The mission of SNHU's department of Social Sciences is to empower and support students in transforming their lives and the lives of those around them through high-quality and innovative educational practices that enrich their knowledge and skills in the helping professions. The department of Social Sciences includes programs in Anthropology, Criminal Justice, Human Services, Political Science, Psychology, and Sociology. Our programs provide students with a heightened awareness of societal and organizational issues from multiple perspectives, as well as skills in critical thinking, problem-solving, communication, ethical reasoning, and professionalism. We pride ourselves in preparing students to make a difference in a variety of professions and contexts.

## **COLLEGE OF ONLINE AND CONTINUING EDUCATION SCIENCE, TECHNOLOGY, ENGINEERING AND MATHEMATICS (STEM) DEPARTMENT**

---

The mission of the STEM Department in the College of Online and Continuing Education is to provide flexible, learner focused, industry driven, affordable, accessible educational opportunities with unparalleled support for learners who otherwise would not have the opportunity to pursue a STEM career. The STEM Department encompasses many robust programs that enable pathways to success in some challenging programs with the common enabling learners to succeed, building confidence and skills and ultimately growing learners to be independent, critical thinkers and problem solvers. Our programs engage students' diverse learning styles through the inclusion of multimedia learning resources and the implementation of authentic technology tools and environments that both adhere to our rigorous learning outcomes and are authentic to the relevant field of professional practice. We pride ourselves on providing our students with a transformative educational experience and never giving up on any student who is putting forth the effort to achieve his or her academic goals.

## UNIVERSITY COLLEGE SCHOOL OF BUSINESS

---

The School of Business at Southern New Hampshire University prepares students for successful careers through a commitment to exceptional teaching of business fundamentals, a relentless focus on the competencies and workplace skills that distinguish high performers in business, and partnerships with businesses and organizations that provide our students with workplace experience and an understanding of today's business environments. The basic knowledge in accounting, economics, finance, marketing, management, leadership, and operations that every business student must attain is no longer sufficient to succeed.

Students today need to be adaptable to succeed in a workplace where jobs that have never existed before are being created daily as new technologies provide opportunities and challenges.

They need to understand the implications of a global marketplace that is fully connected and interdependent. And they need to approach every job as an entrepreneur, finding new and better ways of doing things. We pride ourselves on our exceptional faculty that provides a broad, relevant business education designed to launch our students on successful careers and lives.

## COLLEGE OF ONLINE AND CONTINUING EDUCATION BUSINESS DEPARTMENT

---

The mission of the Business programs in the College of Online and Continuing Education is to create the best online student learning experience in the world and to develop professionals who achieve success personally, in their careers and for society as whole. The many diverse programs of the Department prepare students for both academic and professional advancement opportunities in their chosen fields and disciplines. Our programs employ rigorous learning outcomes, real world scenarios, and the latest technologies relevant to the field of professional practice. We pride ourselves on providing our students with a transformative educational experience and never giving up on any student who is putting forth the effort to achieve his or her academic goals.

# COLLEGE OF ENGINEERING, TECHNOLOGY, AND AERONAUTICS

The College of Engineering, Technology, and Aeronautics (CETA) is one of Southern New Hampshire University's newest initiatives, underlining our continuing commitment to providing high-quality STEM programs. Our priority at SNHU is to provide students with the best possible learning environment. Top-notch faculty, advanced learning tools, and modern, cutting-edge facilities. The diverse faculty members within CETA bring with them a wealth of experience, including time spent designing

videogames, serving in the armed forces, working as scientists and engineers. These faculty members help guide students through rigorous, hands-on curriculum as they spend time in the machine shop, robotics lab, aeronautics lab, electrical lab, wind tunnel, and other state-of-the-art tools available on campus. To us, success means students achieving their education and career goals—and we pride ourselves on providing them with the resources they need to do so.

# COLLEGE FOR AMERICA

The College for America programs at Southern New Hampshire University include competency-based Associates and Bachelor's degrees. Our partnership model allows us to offer programs that are extraordinarily low cost, built for working adults, and uniquely applicable in the workplace. We work around the globe to offer rigorous degrees that are earned by completing real-world projects and goals. They are self-scheduled and self-paced, so students can fit school in around jobs and family responsibilities.

# EDUCATION

## **UNIVERSITY COLLEGE SCHOOL OF EDUCATION**

Founded in 2004, the School of Education provides undergraduate, graduate, and doctoral programs to more than 700 students each year. The School of Education is committed to creating a better tomorrow by preparing students to be knowledgeable, reflective leaders, responsive to the needs of a diverse society.

The School of Education is strongly focused on teaching. Our faculty takes great pride in working closely with our students in a rigorous, practitioner-based program that leads to teacher certification. We have built strong partnerships with schools throughout the region that are committed to providing extensive clinical experiences in classrooms for our students as early as freshman year. Our recently redesigned undergraduate teacher education program will allow our teacher education candidates to spend their entire senior year in a school placement.

## **COLLEGE OF ONLINE AND CONTINUING EDUCATION, EDUCATION DEPARTMENT**

The COCE Education programs strive to develop students into active and influential 21st-century leaders within K-12 education and higher education administration. These students have the knowledge, skills, abilities, and most importantly disposition to create beneficial change within the curriculum, instruction, and programs to meet the individual needs of learners. Our future is brighter knowing we have these educators addressing the diversified and ever-increasing globalized learning community needs.
