4.2 Summarize data and trends from the data linked above, reflecting on the prompts below.

What has the provider learned from reviewing its Annual Reporting Measures over the past three years?

- Discuss any emerging, long-term, expected, or unexpected trends? Discuss any programmatic/provider-wide changes being planned as a result of these data?
- Are benchmarks available for comparison?
- Are measures widely shared? How? With whom?

The SNHU School of Education's 2018 EPP Annual Report reflects the transition from TEAC to CAEP. SNHU has reviewed the data across the eight reporting measures: (1) Impact on P-12 learning and development; (2) Indicators of teaching effectiveness; (3) Satisfaction of employers and employment milestones; (4) Satisfaction of completers; (5) Graduation rates; (6) Abilities of completers to meet licensing and any additional state requirements; (7) Ability of completers to be hired in educational positions for which they have prepared; and (8) Student loan default rates and other consumer information. Plans are developed to collect and analyze more robust data regarding the P-12 learning and development, satisfaction of employers and employment milestones, and the ability of completers to meet licensing and any other additional state requirements.

Section 5. Areas for Improvement, Weaknesses, and/or Stipulations

Summarize EPP activities and the outcomes of those activities as they relate to correcting the areas cited in the last Accreditation Action/Decision Report.

Section 6. Continuous Improvement

CAEP Standard 5

The provider maintains a quality assurance system comprised of valid data from multiple measures, including evidence of candidates' and completers' positive impact on P-12 student learning and development. The provider supports continuous improvement that is sustained and evidence-based, and that evaluates the effectiveness of its completers. The provider uses the results of inquiry and data collection to establish priorities, enhance program elements and capacity, and test innovations to improve completers' impact on P-12 student learning and development.

CAEP Standard 5, Component 5.3

The provider regularly and systematically assesses performance against its goals and relevant standards, tracks results over time, tests innovations and the effects of selection criteria on subsequent progress and completion, and uses results to improve program elements and processes.

6.1 Summarize any data-driven EPP-wide or programmatic modifications, innovations, or changes planned, worked on, or completed in the last academic year. This is an opportunity to share targeted continuous improvement efforts your EPP is proud of. Focus on one to three major efforts the EPP made and the relationship among data examined, changes, and studying the results of those changes.

- Describe how the EPP regularly and systematically assessed its performance against its goals or the CAEP standards.
- What innovations or changes did the EPP implement as a result of that review?
- How are progress and results tracked? How will the EPP know the degree to which changes are improvements?

The following questions were created from the March 2016 handbook for initial-level programs sufficiency criteria for standard 5, component 5.3 and may be helpful in cataloguing continuous improvement.

- What quality assurance system data did the provider review?
- What patterns across preparation programs (both strengths and weaknesses) did the provider identify?
- How did the provider use data/evidence for continuous improvement?
- How did the provider test innovations?
- What specific examples show that changes and program modifications can be linked back to evidence/data?
- How did the provider document explicit investigation of selection criteria used for Standard 3 in relation to candidate progress and completion?
- How did the provider document that data-driven changes are ongoing and based on systematic assessment of performance, and/or that innovations result in overall positive trends of improvement for EPPs, their candidates, and P-12 students?

The following thoughts are derived from the September 2017 handbook for advanced-level programs

How was stakeholders' feedback and input sought and incorporated into the evaluation, research, and decision-making activities?

2. While the New Hampshire pass rate for the Foundations of Reading Exam is 76%, SNHU's pass rate is 68%. The data indicates that the SNHU Elementary only Certification candidates experience an 81% pass rate, while the dual certification candidates (Elementary & Special Education) experience a 50% pass rate, with the lowest scores in the sub-test 4 'Integration of Knowledge and Understanding, which is the only sub-test with open-ended responses.. To increase the number of students to achieve the minimum qualifying scores, SNHU has adopted the following practices: (1) revised individual courses to include sub-components of the Foundations of Reading Exam; (2) re-ordering of the required literacy courses to be taken consecutively; and (3) as SNHU moves to a full year of student teaching, teacher candidates will be required to take the Foundations of Reading Test by November of their first semester of student teaching. The Teacher candidates who do not pass the FOR will be required to participate in mandatory Foundations of Reading tutoring until passing scores are achieved.

Tag the standard(s) or component(s) to which the data or changes apply.

A.1.1 Candidate Knowledge, Skills, and Professional Dispositions

Upload data results or documentation of data-driven changes.

6.2 Would the provider be willing to share highlights, new initiatives, assessments, research, scholarship, or service activities during a CAEP Conference or in other CAEP Communications?

Yes No

6.3 Optional Comments

Section 7: Transition

In the transition from legacy standards and principles to the CAEP standards, CAEP wishes to support a successful transition to CAEP Accreditation. The EPP Annual Report offers an opportunity for rigorous and thoughtful reflection regarding progress in demonstrating evidence toward CAEP Accreditation. To this end, CAEP asks for the following information so that CAEP can identify areas of priority in providing guidance to EPPs.

7.1 Assess and identify gaps (if any) in the EPP's evidence relating to the CAEP standards and the progress made on addressing those gaps. This is an opportunity to share the EPP's assessment of its evidence. It may help to use the Readiness for Accreditation Self-Assessment Checklist, the CAEP Accreditation Handbook (for initial level programs), or the CAEP Handbook: Guidance on Self-Study Reports for Accreditation at the Advanced Level.

If there are no identified gaps, click the box next to "No identified gaps" and proceed to question 7.2.

No identified gaps

If there are identified gaps, please summarize the gaps and any steps planned or taken toward the gap(s) to be fully prepared by your CAEP site visit in the text box below and tag the standard or component to which the text applies.

Tag the standard(s) or component(s) to which the text applies.

Not finished yet

7.2 I certify to the best of my knowledge that the EPP continues to meet legacy NCATE Standards or TEAC Quality Principles, as applicable.

Yes No

7.3 If no, please describe any changes that mean that the EPP does not continue to meet legacy NCATE Standards or TEAC Quality Principles, as applicable.

Section 8: Preparer's Authorization

Preparer's authorization. *By checking the box below, I indicate that I am authorized by the EPP to complete the 2018 EPP Annual Report.*

CAEP Accreditation Policy

Policy 6.01 Annual Report

An EPP must submit an Annual Report to maintain accreditation or accreditation-eligibility. The report is opened for data entry each year in January. EPPs are given 90 days from the date of system availability to complete the report.

CAEP is required to collect and apply the data from the Annual Report to:

1. Monitor whether the EPP continues to meet the CAEP Standards between site visits.
2. Review and analyze stipulations and any AFIs submitted with evidence that they were addressed.

3. Monitor reports of substantive changes.
4. Collect headcount completer data, including for distance learning programs.
5. Monitor how the EPP publicly reports candidate performance data and other consumer information on its website.

CAEP accreditation staff conduct annual analysis of AFIs and/or stipulations and the decisions of the Accreditation Council to assess consistency.

Failure to submit an Annual Report will result in referral to the Accreditation Council for review. Adverse action may result.

Policy 8.05 Misleading or Incorrect Statements

The EPP is responsible for the adequacy and accuracy of all information submitted by the EPP for accreditation purposes, including program reviews, self-study reports, formative feedback reports and addendums and site visit report responses, and information made available to prospective candidates and the public. In particular, information displayed by the EPP pertaining to its accreditation and Title II decision, term, consumer information, or candidate performance (e.g., standardized test results, job placement rates, and licensing examination rates) must be accurate and current.

When CAEP becomes aware that an accredited EPP has misrepresented any action taken by CAEP with respect to the EPP and/or its accreditation, or uses accreditation reports or materials in a false or misleading manner, the EPP will be contacted and directed to issue a corrective communication. Failure to correct misleading or inaccurate statements can lead to adverse action.
