The mission of the School of Arts and Sciences is to educate students to live and work well and to be actively engaged in carrying out civic responsibilities. By connecting the humanities, sciences, fine arts, mathematics, technology, and social inquiry, students prepare for a community role that is as central to individual success as it is to a sustainable society. The School of Arts and Sciences delivers the General Education curriculum for all students in University College. Students of Arts and Sciences can pursue 18 different majors, 10 concentrations, and a wide array of minors. The arts and sciences curriculum serves as a gateway to many careers that already exist and prepares students for careers to come. Programs in the arts and sciences encourage critical thinking, empower students to try the new and dare the different, and help us understand the deepest forms of human expression. A creative mind is the highest recommendation for success in managing a complex world and living effectively in it.

The School of Business at Southern New Hampshire University prepares students for successful careers through a commitment to exceptional teaching of business fundamentals, a relentless focus on the competencies and workplace skills that distinguish high performers in business, and partnerships with businesses and organizations that provide our students with workplace experience and an understanding of today’s business environments. The basic knowledge in accounting, economics, finance, marketing, management, leadership, and operations that every business student must attain is no longer sufficient to succeed. Students today need to be adaptable to succeed in a workplace where jobs that have never existed before are being created daily as new technologies provide opportunities and challenges. They need to understand the implications of a global marketplace that is fully connected and interdependent. And they need to approach every job as an entrepreneur, finding new and better ways of doing things. We pride ourselves on our exceptional faculty that provides a broad, relevant business education designed to launch our students on successful careers and lives.

The School of International Engagement (SIE) develops and promotes global experiences through a wide range of academic, co-curricular and extra-curricular programming and offers high touch services aimed at meeting the needs of international learners, on-campus and at its overseas locations in Malaysia and Vietnam. The programs and services offered through the School of International Engagement foster a culture of pluralism and create environments where students are immersed with people, ideas and places that represent a wider world view. Programs and services are designed to engage learners in global perspectives, guide them to reflect on their place in the world, and position them to be active participants in an increasingly interconnected world.
