# SCHOOL OF BUSINESS

## **SCHOOL OF BUSINESS**

---

The School of Business at Southern New Hampshire University prepares students for successful careers through a commitment to exceptional teaching of business fundamentals, a relentless focus on the competencies and workplace skills that distinguish high performers in business, and partnerships with businesses and organizations that provide our students with workplace experience and an understanding of today's business environments. The basic knowledge in accounting, economics, finance, marketing, management, leadership, and operations that every business student must attain is no longer sufficient to succeed.

Students today need to be adaptable to succeed in a workplace where jobs that have never existed before are being created daily as new technologies provide opportunities and challenges. They need to understand the implications of a global marketplace that is fully connected and interdependent. And they need to approach every job as an entrepreneur, finding new and better ways of doing things. We pride ourselves on our exceptional faculty that provides a broad, relevant business education designed to launch our students on successful careers and lives.
