Teaching and Tech

Master of Education – Technology Integration Specialist

Southern New Hampshire University
Learn how to develop, assess and implement technology curriculum in K-12 schools with SNHU’s M.Ed. Technology Integration Specialist program. Offered online and at our main campus in Manchester, New Hampshire, the minimum 36-credit program combines core educational training in areas such as curriculum development and assessment with focused courses on how technology can be used to create a more efficient and effective learning environment. This program leads to New Hampshire endorsement as an Educational Technology Integration Specialist for grades K-12, and is ideal for already licensed teachers seeking an additional endorsement or for those individuals seeking initial licensure. Students outside New Hampshire must check with their state’s Department of Education for certification requirements and reciprocity. There is reciprocity between New Hampshire and 42 states.

The M.Ed. Technology Integration Specialist program will prepare you to help teachers, schools and school districts use innovative technological tools, resources and methodologies to improve student performance. With the growing demand among schools for skilled IT professionals, adding a technology-focused Master of Education to your resume can offer more opportunities for advancement, increases in pay, and new career possibilities in areas such as training and consulting.

Why the M.Ed. Technology Integration Specialist Degree at SNHU?
- Convenient scheduling – Take courses online or at our Manchester campus.
- Tech-savvy instructors – Your professors are IT and educational experts who understand the current challenges teachers and administrators face.
- Added job security – With demand for information technology professionals on the rise and more schools incorporating technology into their classrooms, having this training can only make you more valuable and marketable to employers.
- Personal attention – Our academic advisers provide the one-on-one support you need to be successful.
- Respected – SNHU is a U.S. News & World Report Tier 1 university.

M.Ed. Technology Integration Specialist — The Curriculum
By combining best practices in curriculum development and assessment with a focused examination of technology integration in K-12 schools, the Technology Integration Specialist program provides you with a strong set of IT and leadership skills so you can help schools meet educational targets and improve learning outcomes. Some of the subjects you will explore in your classes and field work include:
- Developing policies, procedures and budgets that support technology integration.
- Promoting and demonstrating the effective use of digital and Web 2.0 tools.
- Managing the digital portfolio process.
- Evaluating, adapting and reflecting on emerging tools and global trends.
- Collaborating with content area teachers.

M.Ed. Technology Integration Specialist — Outcomes
With SNHU’s Master of Education in Technology Integration Specialist program, you can take advantage of the projected job growth for technology integration specialists by the U.S. Bureau of Labor Statistics. According to the BLS, job growth is expected to increase 23 percent by 2018 as more schools incorporate technology into their curricula.
