WHICH ACCOUNTING PROGRAM MAKES SENSE FOR YOU?

BS ACCOUNTING
This is the core accounting program. The curriculum it follows will appeal to students who are detail-oriented and who enjoy working with numbers. These students have a penchant for accuracy and detail is very important to them. This program starts to prepare students for a variety of careers, including becoming a CPA.

DETAIL-ORIENTED ENJOY WORKING WITH NUMBERS ACCURACY

This variant of the core accounting program is ideal for someone who likes to interact with data and information. These students are interested in investigative types of accounting careers. This can start students on the path to CPA or other certifications.

BS ACCOUNTING – FORENSIC ACCOUNTING AND FRAUD EXAMINATION

$ ACCOUNTING HOW A BUSINESS FUNCTIONS MANAGEMENT RESPONSIBILITY

This program is for students who are drawn to both the detail-oriented focus of accounting and the business-building aspects of finance. Career paths include banking and corporate roles.

BS ACCOUNTING FINANCE

BS BUSINESS STUDIES – ACCOUNTING
This program is ideal for those who have an interest in accounting within the broader context of how a business functions. Their goals include broader management responsibility and they likely enter this degree program with a significant number of transfer credits.

Requirements to sit for the CPA exam vary from state to state. Many states require an additional 30 credit hours beyond a bachelor’s degree. Learn your state’s requirements.
